Habitability Project: **22083950**

NOTICE OF VIOLATIONS

According to one or more public records, you are the owner, or the registered agent of the owner, of the multi-family rental building located at 10910 GULF FWY, Houston, Texas 77034 (the "Property"). On 19-AUG-2022, one or more employees of the City of Houston inspected the Property pursuant to Section 10-157 of the City's Code of Ordinances.

As noted on the enclosed Habitability Inspection Corrections Report (the "Corrections Report"), the City has determined that the Property is in violation of the City of Houston Construction Code and/or the City's Code of Ordinances. **The violations must be addressed as specified in the Corrections Report.** It is the owner's legal obligation to bring the Property into full Compliance with the City's laws within the time stated in the Corrections Report, unless this Department extends the deadline in writing.

If correction of the violations requires a Structural permit, the permit may be obtained from the City by you or your authorized representative. Electrical, Plumbing, and HVAC permits, however, must be obtained from the City by a licensed contractor. Each permit should bear the Project Number assigned to the particular building at which the corrective work will be performed.

Your licensed contractor should call the appropriate department as shown below to request the required inspection(s). Inspections also may be scheduled at www.houstonpermittingcenter.org or by calling the Department's automated inspection request line at 713-222-9922. It is the duty of the person requesting an inspection to provide the inspector with (1) physical access to the work for which the permit was issued, (2) a copy of the Corrections Report, and (3) any permits or plans required by the Construction Code.

It is the owner's duty to notify this Department when all violations have been corrected. An inspection for final approval is required for each permit issued and for each building at which the Corrections Report has noted a violation.

The failure of an inspector or other City employee to observe a violation of the City's laws does not absolve an owner of responsibility to bring the property into compliance. Lack of compliance may result in the issuance of criminal citations or other legal action against the owner or the owner's agents.

If you believe this Notice of Violations or the Corrections Report is inaccurate in any respect, please contact the Department at 832-394-8841 at your earliest convenience. The City of Houston appreciates your cooperation in this matter, and we look forward to working with you.
